Latur, Maharashtra

TECHNICAL SKILLS

Languages: Core Java, C++, JavaScript, SQL, PHP

Technologies/Frameworks: ReactJS, Redux, Tailwindcss, Firebase

PROJECTS

Netflix GPT [↗](#) | React, Firebase, Tailwindcss

02 2024

- Developed a Netflix clone enhanced with AI-powered suggestions using ChatGPT for personalized user experiences. Utilized React for dynamic frontend development and Tailwind CSS for modern, responsive design. Leveraged Firebase for backend services and user authentication, ensuring a seamless and secure platform.

Codepen [↗](#) | React, Tailwindcss

09 2023

- Created projects on CodePen, an online compiler for writing and testing HTML, CSS, and JavaScript code with instant results. Utilized Tailwind CSS for modern and responsive design and React for dynamic frontend development. This platform facilitates rapid prototyping and testing, allowing for efficient code experimentation and immediate visual feedback.

INTERNSHIP

CodSoft [↗](#)

12 2023 – 01 2024

front-end Developer

Remote

- Completed an internship at CodSoft as a Frontend Developer, utilizing HTML, CSS, JavaScript, and Bootstrap. Developed highly responsive landing pages for various businesses, including coffee shops and advertising agencies. Focused on creating visually appealing and user-friendly interfaces, ensuring compatibility across devices and browsers. Collaborated with design teams to enhance user experience and conducted thorough testing and debugging for optimal performance.
